

Care Package for Kids

The “Care Package for Kids” fund has been in place for over 20 years and is used for Lisbon students and their families who are going through a difficult time.

The fund has been able to help numerous students and families with rent, utility bills, clothing, food, medications and other expenses over the years. Parents or students can contact Julie Light, RN, who can provide other funding sources along with the Care Package for Kids fund.

Julie will enter a PO in the schools’ finance program and will need to be approved by the Principal before the check can be written. No cash or gift cards are allowed to be given to families using Care Package for Kids fund, due to no control of what is purchased.

Checks can be written to individuals or to businesses. Please make checks payable to Lisbon Community School, Care Package for Kids fund.
